this text is unique

words meant to be read
for all those texts
created never meant
to be written

by pandoras puzzle box
a device that creates
a local wireless
network and generates

a poem offered as
download whenever a
user logs in and tries
to open a webpage

beware its gaze,
which seeks and finds
its meaning in
your reading

yet there always is
more text to be
written and even more
yet to be read
