

test

Warm up your fingers by typing these short test instructions. The test text is shown in the upper part of the screen. Type it as quickly and accurately as possible until the test time is up. The text you have typed is shown in the lower part of the screen. There you can see if you have made any typing errors. You can use backspace to correct typing errors, but do not spend too much time going back. Do not press enter after each line - only when the paragraph ends.

No matter how much people say bad things at you, you should always be positive. You have to share good energy at others so earth becomes a better place.

The people in the stands are there to support you, but talk after the game, don't lose focus of what you are there to do. Just keep on doing what you're doing and never give up.

No signal came that not a suspicion.
The people had stopped moving out of the Southampton and
Hamburg; and along the ground.
I never heard before or since.
He had always smote their consciences before—it cut deeper than
ever, and with the first day's panic, had resumed traffic, and
was

river find the not how did call left night down number

school world took together being time give made can write out
your right long put walk must idea live will girl seem

The way to be safe is never to be secure. If your head is wax, don't walk in the sun. Love your enemies, for they tell you your faults. What you would seem to be, be really. There are no gains without pains. Love your enemies for they tell you your faults. He that best understands the world, least likes it. Diligence is the mother of good luck. Clean your fingers before you point at my spots. Better slip with foot than tongue. If you would be loved, love and be lovable. Would you live with ease, do what you ought and not what you please. A ploughman on his legs is higher than a gentleman on his knees. Love your enemies, for they tell you your faults. God gives all things to industry. A man is never so ridiculous by those qualities

A girl, in the Vacococha tribe of Peru, to prepare her for marriage at the age of 12, is placed in a basket in the hut of her prospective in-laws and must remain suspended over an open fire night and day for 3 months. The Spanish Inquisition once condemned the entire Netherlands to death for heresy. During the eighteenth century, books that were considered offensive were sometimes punished by being whipped.

Books written especially for children are called children's literature. Children's literature includes stories, fairy tales, fables, poems, and novels. It also includes nonfiction works on history, science, and other subjects. Children's literature can come in the form of picture books or chapter books. Picture books usually have a smaller amount of text, or words, and pictures on every page. They are written for younger readers. Chapter books have few or no pictures and much more text, which is divided into sections called chapters. Chapter books are written for older children. The faster you drive, the more fuel you're using. 55 mph is the optimum speed on the highway. Authorities are again considering making 55 mph required on all highways in an effort to mandate fuel conservation. If they do that, you'll be well ahead of the game. On some highways in west Texas you can legally drive 80 mph. Gas mileage drops dramatically at this speed. Don't drive erratically. Strive for smooth starts and stops. Pick a lane and stay in it without weaving in and out of traffic. The shortest distance between two points is a straight line. Lemongrass and sage scents, which are also good for fatigue, are known to help some people with headaches. These scents calm the nervous system and relax your inner being, which will minimize the headache that won't allow you to function. Can you believe aromatherapy can even help you with acne issues? Cedarwood, lemon and sandalwood are effective scents that help to promote

"In the pilot study, we found a superior performance (on a descriptive level) after handwriting training compared to typing training in all of the test tasks except letter recognition. Furthermore, the handwriting group performed significantly better in free letter writing ($p = .047$, $d = 0.63$) and word writing ($p = .048$, $d = 0.7$) than the typing group. Results of the current study are not available because training of the children is not completed."

Capturing and retyping text of the first 10 Google search results for "online typing test".
